GOODS version

Aritco PublicLift Access comes with customization possibilities. Choose from more than 200 different colours, 2 different glass types and 8 different floors. The lift is very practical and smart and gives everyone access to different floors in public & commercial buildings. It comes in several different sizes, and on the larger ones you can fit a stroller or a wheelchair. It's reliable and has a robust design that can handle tough public & commercial environments. The lift is SmartLift enabled which means that a maintenance provider can get access to a Fleet management system for remote monitoring and support of the lift. The lift is equipped with our SmartSafety system, with safety features, to meet all situations that can occur in public & commercial spaces, as well as to prevent accidents.
